

# Learning Journey Map

Year 8\*

Moving to  
Year 9

8.13 Algebraic expressions  
8.14 Translations, rotations and reflections  
**Stage 8 End of year Assessment - Units 8.1 - 8.14**  
8.15 Diagrams and constructions  
**Diagnostic tests - Units 9.1, 9.2, 9.3 and 9.4**

8.10 Linear equations: graphically and algebraically  
8.11 Accuracy with perimeter, area and volume  
**Assessment Point 4 - Units 8.1 - 8.11**  
**Diagnostic tests - 8.12, 8.13, 8.14, 8.15**  
8.12 Dividing quantities into ratios

8.9 - Factors, Multiples & Primes  
**Assessment Point 3 - Units 8.1 - 8.9**  
**Diagnostic tests - 8.10 and 8.11**  
8.10 Linear equations: graphically and algebraically

8.7 Symmetries and constructions  
8.8 Using averages, range and relationships to describe data  
8.9 Multiples, factors and primes

8.5 Percentages  
8.6 Sequences and relationships  
**Assessment Point 2 - Units 8.1 - 8.6**  
**Diagnostic tests - 8.7, 8.8 and 8.9.**

8.1 - Arithmetical problems with decimals and negative numbers  
8.2 Linear equations with an unknown on both sides  
8.3 Parallel, alternate and corresponding angles  
**Assessment Point 1 - Units 8.1, 8.2 and 8.3.**  
8.4 Sets and unions. **Diagnostic Tests 8.4, 8.5 and 8.6.**

Curriculum  
Overview

Welcome  
Curriculum Overview

This is what a typical year 8 pupil will study over the next 4 years, this could change depending on diagnostic assessments.
